As I feel it proper to give the good people of Norway and vicinity a few valuable suggestions in regard to a subject which concerns them, one and all, I resort to the columns of the Advertiser. I propose to appeal directly to the understanding of readers, and shall endeavor to demonstrate that I am not only able, but willing to furnish you with a neat, stylish and durable covering for your feet, at less cost and in a more satisfactory manner than like results can be accomplished elsewhere.

Those who deal with me find it costs no more to wear boots or shoes that fit their feet perfectly and comfortably, and present a genteel appearance, than to do so with shoes that are ill-fitting, and which are a source of trouble and expense to the members of the body in a pair of ill-fitting abominations, made with out regard to anatomy, comfort or appearance.

I aim to carry a full assortment of the very finest foot wear, made up in a thorough manner, from the finest materials, with special attention to fitting qualities. In addition to this, I guarantee prices to be lower than others, and am asking for goods inferior to those I offer. In order to provide you with the very best of material, thoroughly made, and still keep my prices lower than those offered by dealers who carry a stock of ordinary goods, it will be necessary to sell on credit. This I am determined to do, believing that such a course will greatly increase the volume of my trade, and benefit me as well as my customers in the end. Do you catch the idea? I wish to make one hundred sales, small profits, pleasing my customers, in preference to ten sales of inferior and unsatisfactory goods, which may produce great immediate gain, but are sure to prove disastrous in the end. In conclusion, I wish to say that I have as good a stock as money, judgment and experience will procure. If you know of good things when you see it, and appreciate polite attention and reasonable prices, you will find it both interesting and profitable to look through my stock. I shall be glad to see you at any time. My best argument is my goods and prices, and in order to clearly demonstrate that my store is the best and cheapest place to purchase boots and shoes, it will be necessary that you should call. Hoping to see you at an early day, and promising the best of treatment and a genuine bargain every time you favor me with your patronage, I remain Very truly yours, J. F. ALLEN.

A Good St. John Argument,

WHICH EXPLAINS ITSELF AND SETS OUR REGISTER OF PROBATE RIGHT WITH HIS PARTY.

MY DEAR ADVERTISER.—Some two weeks since one of your correspondents expressed a good deal of surprise that I was accused of carrying a torch to the Democratic jubilee on Paris Hill. I have been considerably annoyed since by anxious inquirers, who wish to know if I have changed my politics, since insisting that I have, at least suddenly developed into a full-fledged Democrat. Now I desire through your columns to "tell the truth" with regard to that important transaction, which according to my best knowledge and belief was as follows: I was walking down the sidewalk while the unfettered were trying to make a deal of business. For a march, when a friend of mine stepped out of the ranks and asked me to take his torch. I of course took him as an act of kindness to my Democratic friend, and I would relieve a struggling act from the bone in her throat. I tried every means within my power to extinguish the light but in vain. As a last resort I took it to the town pump and treated it to a bountiful shower of cold water. It hissed with rage for a while and then expired in agony; thus proving that there is nothing so destructive to Democracy as cold water. I was somewhat surprised to see the trifling but generous act noticed in your public press. Yet I see good reason why this accidental act of generosity, to a disgusted Democrat friend, should not be spread abroad over the land through the same medium through which the public are informed of such important events as the following: "G. B. is cutting corn with G. B." "J. W. has sold a beef cow to J. A." "Mrs. E. H. made us a pleasant call Saturday." "J. P. E. and wife and C. C. and wife." "We are having lovely weather for the time of year," etc., etc. Very truly, J. H. C. DAVIS.

Paris Me., Dec. 9, 1884.

IF YOUR PUMP IS TROUBLING YOU, WHY

not take it out and put in a Hooover? This is the only pump that is guaranteed to give perfect satisfaction. There are nearly one thousand of these pumps now in use and we refer with pride to the many who have used them. For particulars and circulars address Sewell Austin, Norway, Maine; agent for Oxford County.

CANOE.

George Walden of this town committed suicide by drowning in Dumps pond on Thursday evening, Nov. 27th. He had been despondent and gloomy for several weeks, but attended to his business as usual, up to that evening, doing his chores up all right, then coming in and lying down to rest for a few minutes. He was found by his wife and told his wife he was going out and bidding her good-by. After waiting a few minutes his wife went to the door and called him but receiving no answer, she summoned the neighbors who, after looking some time found him floating in the pond, which gave them a clew and boats were procured and search made, but after some time without result, they abandoned the idea of finding him that night and went to their several homes, all agreeing to resume the search in the morning, which they did and found the body in about 25 feet of water.

Mr. Walker was one of our best farmers, well off, and everything he touched gave him a clew and boats were procured and search made, but after some time without result, they abandoned the idea of finding him that night and went to their several homes, all agreeing to resume the search in the morning, which they did and found the body in about 25 feet of water.
